Dear Ms Henney,

I am in support of a legal petition by the Center for Food Safety. I ask that you require that:

- No new genetically-engineered foods or products with GE ingredients be released until the FDA requires long-term safety testing of all GE foods before they go to market.
- All GE foods presently on the market be labeled, giving consumers the right to know what's in the food they are eating.

During the recent comment period the USDA received overwhelming consumer support for organic foods, which says we don't want genetically-engineered foods. Stop experimenting on the American public.

No genetically-engineered foods,

Mark J Burwinkel
